

Neoprene Properties

Pigs Unlimited International, Inc.'s line of neoprene components including cups and discs are constructed in accordance with the highest industry standards and to the highest engineering specifications from high-quality neoprene with excellent wear, abrasion, and chemical resistance.

Shown below are standard properties of our neoprene.

Specific Density:	1.32 to 1.38
Hardness:	70 Shore A
Tear:	250 PLI
Rebound:	20% @ 212° F.
Abrasion:	15
Elongation:	505%
Tensile:	2440 psi
Temperature:	-30°F to 250°F

Note: Please contact us for properties of various polyurethane formulations for special applications.
